

CABLE TRAY

DELIVERING EXCELLENCE IN
CABLE MANAGEMENT SYSTEMS

“Frisson Globalize is committed to providing top-notch industrial solutions, focusing on innovative cable tray systems designed to meet the highest standards of efficiency and reliability.”

Who We are?

At Frisson Globalize, we are your trusted partner in international trade. Committed to excellence and equipped with a global perspective, we specialize in connecting businesses worldwide. Our extensive network and expertise enable us to navigate the complexities of international trade with precision. We pride ourselves on our dedication to quality, sustainability, and client satisfaction. Our mission is to make global trade accessible and efficient, empowering businesses to thrive internationally.

Why Choose Us?

Our unwavering commitment to quality ensures that we deliver products of the highest standard. We follow rigorous quality control processes at every production stage, guaranteeing durability and reliability, even in the most challenging environments. This dedication reflects our commitment to excellence and client satisfaction.

Core of Our Success

QUALITY ASSURANCE

Quality is our top priority at Frisson Globalize. Through rigorous quality control processes, adherence to industry standards, and the use of premium materials, we ensure every product we export is built to last and meets the highest standards.

GLOBAL REACH

Our extensive international network spans multiple continents, providing us with the global reach needed to serve diverse and dynamic markets efficiently.

CLIENT CENTRIC APPROACH

Our clients are central to everything we do. We collaborate closely with them to understand their unique needs and preferences, delivering tailored solutions that consistently exceed expectations.

PERFORATED CABLE TRAY

Our perforated cable trays are the perfect choice for any project requiring reliable, efficient, and durable cable management solutions. Designed with precision and manufactured using high-quality materials, these trays offer a reliable solution for organizing and protecting your electrical and data cables in various industrial and commercial uses. With a commitment to quality and customer satisfaction, we ensure that our products meet the highest industry standards, making them the preferred choice for clients around the globe.

Product Size Range:

Width (mm)	Height (mm)	Thickenss (mm)	Length (mm)
50	25/35/50/ 75/100	1.2/1.5/1.6/2/ 3	2500/3000
100			
150			
200			
250			
300			
350			
400			
450			
500			
550			
600			

Various Features:

- Maximizes Ventilation
- Easy Installation
- Corrosion Resistance
- Rigid Structure
- High Capacity

Raw Material:

- Mild Steel
- Pre-Galvanized
- Stainless Steel (SS) - 304
- Stainless Steel (SS) - 316

Finished Material:

- Hot Dip Galvanized
- Pre-Galvanized
- Powder Coated
- SS 304
- SS 316

LADDER CABLE TRAY

Our ladder cable trays provide a robust and efficient solution for supporting and managing cables in a variety of industrial and commercial applications. Our ladder cable trays are designed to provide superior strength, flexibility, and durability, making them the ideal choice for managing cables in demanding environments. Committed to quality and customer satisfaction, we ensure that our products meet the highest industry standards, making them a reliable choice for clients worldwide. Constructed from high-quality materials and designed for maximum strength and durability, these trays are ideal for heavy-duty cable installations, ensuring reliability and ease of maintenance.

Product Size Range:

Width (mm)	Height (mm)	Thickenss (mm)	Length (mm)
150	50/75/100 /150	1.5/1.6/2/2.5/ 3	2500/3000
200			
250			
300			
350			
400			
450			
500			
550			
600			
650	1.6/2/2.5/3		
700			
750			
800			
900	75/100/150	2/2.5/3	
1000			
1200			
1500			

Various Features:

- Structured with parallel rungs and side rails
- Open design aids airflow and easy access
- Versatile, adjustable, and safety-enhanced
- Compliant with industry standards for reliability and performance

Raw Material:

- Mild Steel
- Pre-Galvanized
- Stainless Steel (SS) - 304
- Stainless Steel (SS) - 316

Finished Material:

- Hot Dip Galvanied
- Pre-Galvanized
- Powder Coated
- SS 304
- SS 316

WIRE MESH CABLE TRAY

Our wire mesh cable trays offer a versatile and cost-effective solution for cable management in a variety of industrial and commercial applications. Our wire mesh cable trays are designed to provide flexible, efficient, and cost-effective cable management solutions. Committed to quality and customer satisfaction, we ensure that our products meet the highest industry standards, making them the preferred choice for clients around the world. Designed for flexibility and ease of installation, these trays are ideal for supporting and organizing low-voltage, telecommunication, and fiber optic cables. Constructed from high-quality materials, our wire mesh trays ensure durability and efficient cable management.

Product Size Range:

Width (mm)	Height (mm)	Thickenss (mm)	Length (mm)
50	25/50/75/100	3/4/5	2500
100			
150			
200	50/75/100	4/5/6	
300			
400			
500			
600			

Various Features:

- Open design promotes airflow and simplifies cable installation.
- Versatile, suitable for industrial, commercial, and data center applications.
- Adjustable components for tailored setups.
- Corrosion resistance ensures longevity.
- Easy access for maintenance and troubleshooting.
- Compliant with safety standards for peace of mind.

Raw Material:

- Mild Steel
- Stainless Steel (SS) - 202
- Stainless Steel (SS) - 304
- Stainless Steel (SS) - 316

Finished Material:

- Hot Dip Galvanized
- Electroplated
- Powder Coated
- Stainless Steel

RACEWAY CABLE TRAY

Our raceway cable trays provide an efficient and organized solution for routing, protecting, and managing cables in a variety of environments. Our raceway cable trays are designed to provide robust protection, efficient organization, and aesthetic appeal for your cable management needs. Committed to delivering high-quality products, we ensure that our raceway trays meet the highest industry standards, making them the ideal choice for clients seeking reliable and versatile cable management solutions. Designed with a closed structure, these trays are ideal for applications requiring enhanced protection for electrical, data, and communication cables. Manufactured using high-quality materials, our raceway cable trays offer durability, reliability, and ease of installation.

Product Size Range:

Width (mm)	Height (mm)	Thickenss (mm)	Length (mm)
50	25/50/75/ 100	1.2/1.5/1.6/2	2500/3000
100			
150			
200	50/75/100	1.5/1.6/2/2.5	
300			
400			
500			
600			

Various Features:

- Provides organized pathway for cables.
- Suitable for various environments.
- Easy installation and maintenance.
- Offers protection and support for cables.
- Versatile for diverse cable management needs.
- Compliant with safety standards.

Raw Material:

- Mild Steel
- Pre-Galvanized

Finished Material:

- Hot Dip Galvanized
- Pre-Galvanized
- Powder Coated

EMBOSSED PERFORATED CABLE TRAY

Our embossed perforated cable trays offer an advanced solution for cable management, combining the benefits of perforation for ventilation with added strength and rigidity from the embossed design. Our embossed perforated cable trays are designed to provide enhanced strength, superior ventilation, and durable protection for your cable management needs. With a commitment to quality and customer satisfaction, we ensure that our products meet the highest industry standards, making them the preferred choice for clients around the globe. These trays are perfect for organizing and protecting cables in a variety of industrial and commercial applications. Constructed from high-quality materials, our embossed perforated trays ensure durability, superior performance, and ease of installation.

Product Size Range:

Width (mm)	Height (mm)	Thickenss (mm)	Length (mm)
100	35/50/80	1/1.2/1.5	3000
150			
200		1.2/1.5	
300			
400			
500			

Various Features:

- Enhanced airflow and heat dissipation.
- Lightweight yet durable construction.
- Easy installation with versatile mounting options.
- Provides excellent cable support and organization.
- Corrosion-resistant materials for long-term reliability.
- Customizable configurations to suit various applications.

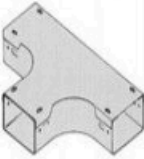

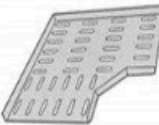

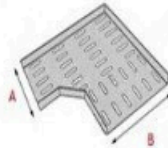

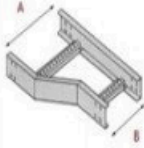

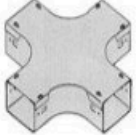

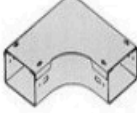

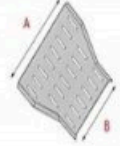

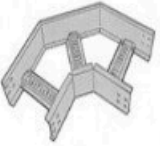

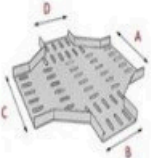

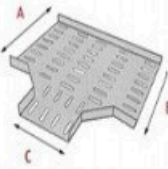

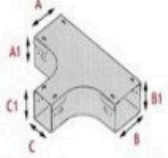

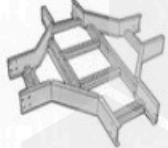

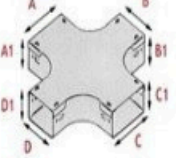

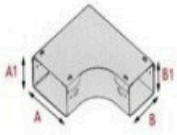

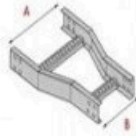

Raw Material:

- Mild Steel
- Pre-Galvanized

Finished Material:

- Hot Dip Galvanized
- Pre-Galvanized
- Powder Coated
